## IMPORTANT NOTES:

- Travertine, Onyx, and Stardust Collections.
- a. It is not possible to achieve consistent repetitive pattern during manufacturing. The samples shown here do not represent the full veining pattern.
- b. Due to the natural veining in these two collections, miter joint is recommended for "L-shaped" kitchen work top.
- Dark colours require higher maintenance.
- **Customised colours can be arranged.**
- Designs and Colours may vary from actual samples.
